

## Carbon Reduction Plan

Publication Date:

School Milk Services are committed to achieving net zero carbon emissions by 2045.

### Baseline Emissions

Baseline Year: 2023

Scope	Emissions
Scope 1	54.08
Scope 2	10.01
Scope 3 <ul style="list-style-type: none"> <li>- Purchased Goods and Services</li> <li>- Capital Goods</li> <li>- Fuel and Energy Related Activities</li> <li>- Upstream Transportation and Distribution</li> <li>- Waste</li> <li>- Business Travel</li> <li>- Commute</li> <li>- Upstream Leased Assets</li> <li>- Downstream Transport and Distribution</li> </ul>	1,475.90
<b>Total</b>	<b>1,539.99</b>

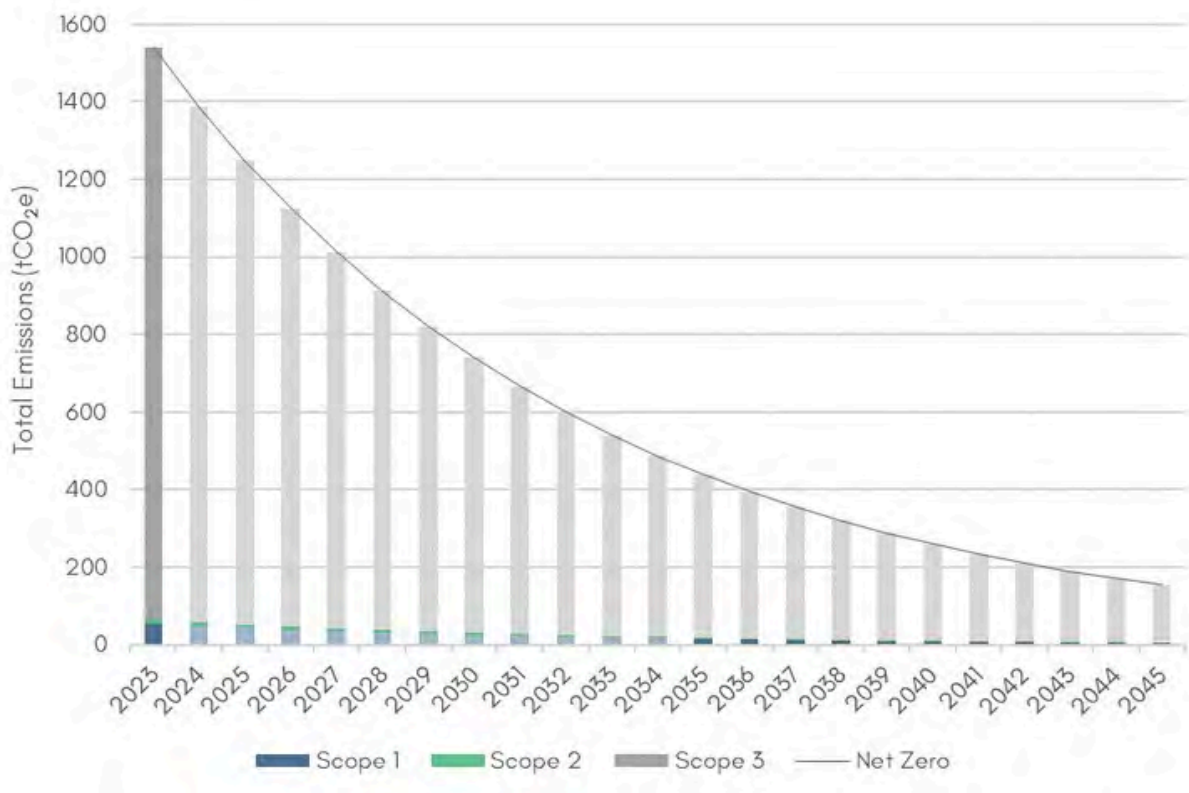

### Current Emissions

Reporting Year: 2023

Scope	Emissions
Scope 1	54.08
Scope 2	10.01
Scope 3 <ul style="list-style-type: none"> <li>- Purchased Goods and Services</li> <li>- Capital Goods</li> <li>- Fuel and Energy Related Activities</li> <li>- Upstream Transportation and Distribution</li> <li>- Waste</li> <li>- Business Travel</li> <li>- Commute</li> <li>- Upstream Leased Assets</li> <li>- Downstream Transport and Distribution</li> </ul>	1,475.90
<b>Total</b>	<b>1,539.99</b>

## Reduction Targets

To ensure the ambition of net zero 2045 is being met, an emission reduction of 52% is required by 2030.

## Carbon Reduction Projects

Although 2023 marks the baseline year for emission measurement, a number of decarbonisation interventions have already been implemented:

- All light fittings are LEDs
- No gas consumption for space heating
- Tracking of vehicle fuel use and electricity consumption
- Greater understanding of the carbon impact associated with business activities

To encourage continued reduction in emissions and achievement of 2030 targets, the following actions will be implemented:

- Driver training to increase awareness of fuel efficiency
- Planning journeys to ensure most efficient routes are taken and selection of the best times to travel
- Installation of on-site solar PV
- Engaging with supply chain to gather supplier-specific data and ensure alignment to reduction targets
- Regular data tracking across all emission categories

## Declaration and Sign Off

The Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standards for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriated Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

## Signed on behalf of School Milk Services:

Name: Darren Randle

Date: 21/05/2024
